<b>Executive Summary</b>	
<b>Introduction</b>	
Background .....	i
Purpose .....	i
Outreach.....	i
Presentation .....	ii
<b>Chapter 1 Inventory</b>	
1. Introduction .....	1-1
1.1 History.....	1-1
1.2 Airport Role.....	1-1
1.3 FAA Certification.....	1-2
1.4 Airport Location .....	1-3
1.5 Property .....	1-5
2. Airport Facilities and Equipment .....	1-6
2.1 Runways, Navigational Aids, and Instrument Procedures .....	1-8
2.1.1 Runway Characteristics .....	1-8
2.1.2 Navigational Aids .....	1-8
2.1.3 Aircraft Instrument Procedures .....	1-9
2.2 Taxiways and Taxilanes .....	1-10
2.3 Aprons .....	1-10
2.4 Hangars and Aircraft Storage .....	1-10
2.5 Fixed Base Operators.....	1-11
2.6 Airport Tenants .....	1-11
2.7 Aircraft Rescue and Firefighting .....	1-11
2.8 Airport Equipment.....	1-12
2.9 Automobile Access and Parking.....	1-12
2.10 Security Fencing and Gates .....	1-13
2.11 Regional Airports .....	1-14
3. Design Standards and Surfaces .....	1-16
4. Environmental .....	1-18
4.1 Threatened and Endangered Species.....	1-18
4.2 Floodplains .....	1-18
4.3 Wetlands and Navigable Waters .....	1-18
4.4 Farmland.....	1-18
4.5 Water Quality .....	1-18
5. Wind and Weather .....	1-19
5.1 Wind Data .....	1-19
5.2 Climate Data.....	1-20

	<b>Page</b>
6. Aviation Activity .....	1-21
6.1 Passenger Enplanements .....	1-21
6.2 Aircraft Operations.....	1-23
6.3 Based Aircraft .....	1-25
7. Land Use .....	1-27
7.1 Existing Land Use.....	1-27
7.2 Local Comprehensive Plans.....	1-29
8. Demographic and Socioeconomic Profile .....	1-30
8.1 Service Area .....	1-30
8.2 Population.....	1-30
8.3 Employment Characteristics.....	1-31
8.4 Gross Regional Product .....	1-32
8.5 Median Household Income.....	1-32
9. Summary.....	1-33

**Chapter 2 Aviation Activity Forecasts**

1. Introduction .....	2-1
1.1 Forecast Utilization .....	2-2
1.2 FAA Approval Process .....	2-2
1.3 Review of Previous Forecasts .....	2-2
1.3.1 December 2009 Terminal Area Forecast.....	2-2
1.3.2 FAA Aerospace Forecast 2010-2030 .....	2-2
1.3.3 2008 Idaho Department of Transportation Aviation System Plan.....	2-3
1.3.4 2000 Airport Master Plan .....	2-3
1.4 Regional Airport Analysis.....	2-4
2. Based Aircraft.....	2-5
2.1 Based Aircraft History .....	2-5
2.2 Based Aircraft Forecast—2009 Terminal Area Forecast .....	2-5
2.3 Based Aircraft Forecast—2008 System Plan.....	2-6
2.4 Based Aircraft Forecast—Method Comparison.....	2-7
3. Aircraft Operations .....	2-10
3.1 Aircraft Operations Forecast—Terminal Area Forecast .....	2-10
3.2 Aircraft Operations Forecast—2008 System Plan.....	2-11
3.3 Aircraft Operations Forecast—Method Comparison .....	2-11
4. Scheduled Commercial Passenger Airline Service .....	2-12
4.1 2003 Idaho Air Passenger Demand Study .....	2-12
4.2 Niche Market Low Cost Carriers.....	2-12
4.3 Intrastate Scheduled Commercial Passenger Airline Service.....	2-13
4.4 Scheduled Commercial Passenger Airline Service Considerations.....	2-13

	<b>Page</b>
5. Enplanement Scenarios and Forecasts .....	2-14
5.1 Niche-Market Low Cost Carrier Enplanement Forecast.....	2-14
5.2 Intrastate Commercial Passenger Airline Service Enplanement Forecast.....	2-15
5.3 Commercial Enplanement Forecast Summary.....	2-15
6. Scheduled Commercial Air Cargo Service.....	2-16
7. Critical Aircraft.....	2-17
8. Summary.....	2-18

**Chapter 3 Facility Forecasts**

1. Introduction .....	3-1
1.1 2008 Idaho Airport System Plan.....	3-2
1.2 Part 139 Certification .....	3-2
2. Airfield Demand and Capacity Analysis .....	3-3
3. Airside Facilities .....	3-5
3.1 Critical Aircraft .....	3-5
3.2 Runway Length.....	3-5
3.2.1 Aircraft that Weigh More than 60,000 Pounds.....	3-5
3.2.2 Aircraft that Weigh 60,000 or Less.....	3-6
3.3 Runway Width.....	3-6
3.4 Runway Layout .....	3-7
3.4.1 Grass Landing Strip .....	3-8
3.5 Taxiway System .....	3-8
3.5.1 Taxiway Width.....	3-8
3.5.2 Taxiway Configuration .....	3-8
3.6 Design Standards and Part 77 Surfaces .....	3-9
3.7 Navigation Aids.....	3-10
3.8 Instrument Procedures .....	3-11
3.9 Airport Traffic Control Tower .....	3-12
4. General Aviation Facilities.....	3-13
4.1 Aircraft Parking Storage .....	3-13
4.1.1 Aircraft Hangar Units and Tie-Down Spaces .....	3-13
4.1.2 Aircraft Aprons .....	3-14
4.2 Fixed Base Operators.....	3-14
5. Support Facilities.....	3-15
5.1 Aircraft Rescue and Firefighting .....	3-15
5.2 Airport Maintenance .....	3-15
5.3 Aircraft Deicing .....	3-15
6. Airport Property .....	3-16
7. Automobile Access and Parking .....	3-16
7.1 Automobile Access .....	3-16
7.2 Employee, Visitor, and Tenant Automobile Parking.....	3-16

	<b>Page</b>
8. Passenger Terminal Building .....	3-17
8.1 Airline Ticketing Offices and Check-in Facilities.....	3-17
8.2 Security.....	3-18
8.3 Passenger Holdroom and Boarding Gates.....	3-18
8.4 Baggage Claim .....	3-18
8.5 Rental Car.....	3-19
8.6 Automobile Access and Parking.....	3-19
9. Summary.....	3-20
<b>Chapter 4 Improvement Alternatives</b>	
1. Introduction .....	4-1
1.1 Evaluation Criteria .....	4-1
2. Airside Facilities .....	4-2
2.1 Runway Extension and Location .....	4-2
2.1.1 Alternative 1 .....	4-3
2.1.2 Alternative 2 .....	4-6
2.1.3 Alternative 3 .....	4-9
2.1.4 Alternative 4 .....	4-12
2.1.5 Alternative 5 .....	4-15
2.1.6 Alternative 6 .....	4-18
2.1.7 Alternative 7 .....	4-21
2.1.8 Runway Alternative Comparison.....	4-21
2.2 Taxiway Modifications .....	4-26
2.2.1 Taxiway F.....	4-26
2.2.2 Taxiway D Realignment.....	4-27
2.2.3 Taxiway A Relocation .....	4-28
2.2.4 Taxiway B and E Realignment.....	4-29
2.2.5 Infield Taxiway .....	4-30
2.3 VOR Removal/Relocation.....	4-30
2.4 Airport Traffic Control Tower Siting .....	4-31
2.4.1 ATCT Alternative 1 .....	4-33
2.4.2 ATCT Alternative 2.....	4-33
2.4.3 ATCT Alternative 3.....	4-33
2.4.4 ATCT Location Alternative Comparison.....	4-34
2.5. Aircraft Parking Apron Development.....	4-34
2.5.1 Infield Apron .....	4-36
2.5.2 Northside Apron .....	4-36
2.5.3 U.S. Forest Service Apron .....	4-36
2.5.4 Empire Aerospace Apron.....	4-36
3. Landside Facilities.....	4-37
3.1 Aircraft Storage.....	4-37

	<b>Page</b>
3.1.1 Northside .....	4-37
3.1.2 Southside .....	4-39
3.1.3 Eastside .....	4-39
3.2 FBO .....	4-41
3.3 Empire Aerospace .....	4-41
3.4 USFS .....	4-41
4. Support Facilities.....	4-42
4.1 ARFF .....	4-42
4.2 Airport Operations and Maintenance.....	4-42
4.3 Airport Administration .....	4-42
5. Passenger Terminal Building .....	4-44
5.1 Alternative 1 - Northside .....	4-45
5.2 Alternative 2 – Southside.....	4-46
5.3 Alternative Comparison .....	4-47
6. Airport Property .....	4-48
7. Automobile Access.....	4-50
8. Summary.....	4-52

**Chapter 5 Financial Feasibility**

1. Introduction .....	5-1
2. Operating Income and Expenses.....	5-2
3. Airport Rates and Charges Analysis .....	5-3
4. Capital Improvement Plan.....	5-4
4.1 Near-term Projects .....	5-6
4.1.1 2012 .....	5-6
4.1.2 2013 .....	5-6
4.1.3 2014 .....	5-6
4.1.4 2015 .....	5-6
4.1.5 2016 .....	5-6
4.1.6 2017 .....	5-6
4.2 Mid-term Projects .....	5-7
4.2.1 2018 .....	5-7
4.2.2 2019 .....	5-7
4.2.3 2020 .....	5-7
4.2.4 2021 .....	5-8
4.2.5 2022 .....	5-8
4.2.5 Long-Term Projects.....	5-8
4.3 Long-Term Projects .....	5-8
5. Summary.....	5-10

	<b>Page</b>
<b>Chapter 6 Land Use</b>	
1. Introduction .....	6-1
1.1 Federal Regulations Relating to Airport land Use Compatibility .....	6-2
1.1.1 Federal Aviation Regulation Part 77 .....	6-2
1.1.2 Noise .....	6-4
1.2 Idaho Airport Land Use Compatibility Regulations.....	6-4
1.2.1 Airport Zoning Act .....	6-4
1.2.2 2008 Idaho Plan Land Use Compatibility Guidelines.....	6-5
2. Aircraft Noise Analysis .....	6-6
2.1 Methodology .....	6-6
2.1.1 Aircraft Fleet Mix .....	6-6
2.1.2 Airport Operations .....	6-6
2.1.3 Daytime-Nighttime Operations.....	6-6
2.1.4 Runway Utilization.....	6-7
2.1.5 Flight Tracks.....	6-7
2.2 Existing Noise Contours .....	6-7
2.3 Forecasted Noise Contours.....	6-8
3. Airport Safety Compatibility Zones.....	6-10
4. Existing Land Use .....	6-13
4.1 Kootenai County .....	6-13
4.2 City of Hayden .....	6-14
4.3 Other Jurisdictions.....	6-15
4.4 Existing Land Use Summary .....	6-15
5. Planned Land Use.....	6-18
5.1 Kootenai County .....	6-18
5.2 City of Hayden .....	6-19
5.3 Other Jurisdictions.....	6-20
5.4 Planned Land Use Summary.....	6-20
6. Land Use Compatibility Strategies.....	6-23
6.1 Land Use Compatibility Recommendations .....	6-23
6.1.1 Overlay Zone.....	6-23
6.1.2 Development Pattern .....	6-24
6.1.3 Structure Height .....	6-24
7. Summary.....	6-25

**Appendices**

Appendix A – Recommendations for Spill Prevention Control and Countermeasures,  
and Stormwater Pollution Prevention Plan

Appendix B – Memo on Comprehensive Plan Updates

Appendix C – Integrated Noise Model Input Data

## List of Tables
